

Eastcote Horticultural Society

Equality, Diversity and Inclusion Statement

The Eastcote Horticultural Society is a not-for-profit community organisation run solely by volunteers for the benefit of its members. Our members and our volunteers are in the local community, and these are the people we aim to serve.

Our approach and procedures are intended to ensure fairness for all and to reinforce the Society's commitment to deliver fair, accessible and relevant activities.

We encourage all our members to take part in the activities of the Society, in whichever way they choose and is most relevant to them.

We want people of all ages and sectors of the community in Eastcote to feel valued and be able to fully participate in, and develop an interest in, horticulture and our other related activities.
